Would you like a **detached villa**, designed to meet all your needs in a location not too far from major centers? We have an idea!

We offer you a **building plot** of 1060 sqm with the possibility to build up to about 1700 cubic meters. It might sound complex, but to simplify your life and help you realize your real estate dream, we also propose a sample project to start from: an environmentally conscious and as **eco-friendly** as possible idea, which you can modify to make it your dream home in the Dolomites.

The plot is located in a flat area where it is possible to build a single residence and enjoy a **very large garden** for gardening enthusiasts, outdoor barbecues, or simply as a place to relax, perhaps reading a good book and admiring the surrounding nature. The perfect space for children's games or for letting your four-legged friends run and have fun!

Alternatively, two separate buildings could be constructed, fully utilizing the buildable area and making an investment to sell or rent.

But let's get to the real highlig...
